

# Leftover Chalk Paint Project Guide

Welcome to Design Morsel's Leftover Chalk Paint Project Guide!

Hi I'm Andrea from DesignMorsels.com. If you're like me, you buy some expensive chalk paint for a furniture project and you always have just a little bit left over! I'm going to show you fun projects you can do with that left over paint so you don't have to throw it away!

# Quick Project Tips

1

To make sure your left over paint is usable make sure you put the lid on tightly when you finish each project.

2

If you want to change the color before you use the leftover paint you can lighten your paint by adding in some regular white latex paint a little bit at a time.

3

If your paint seems to have thickened by the time you get back to using it, you can thin it out with a little bit of water, followed by shaking.
